Revision: 7

The Probation and Parole Unit supervises offenders on Community Based Court Orders (e.g bail, probation, or parole). The unit also provides advice to Courts and releasing authorities on the background, attitudes and behaviours of offenders subject to Court Orders.

The Unit aims to reduce re-offending by using empirically sound risk assessment tools to identify criminogenic risk factors. It then tailors a rehabilitation plan to address these factors, and uses a brokerage case management approach to provide these services.
