Interstate Victims Registers

The provision of information to crime victims is a feature of every correctional agency in Australia.

If the offender for whom you wish to receive information about has been sentenced in a State or Territory other than the Australian Capital Territory, you may need to request placement on the Victims Register for that State or Territory.

As each jurisdiction has differing eligibility criteria for registration, it is recommended that prior to submitting a request for registration you contact the appropriate State or Territory authority to discuss whether you are eligible to register as a victim.
